REMARKS

The present application is a continuation of co-
pending application Serial No. 08/162,376, now in
Interference No. 103,562, which is a file-wrapper
continuation of Serial No. 07/656,575, which is a
continuation-in-part of Serial No. 07/483,005. A copy of
the specification and the 39 claims of the '575 application
is enclosed.

Subsequent to the filing of the '575 application,
but prior to the filing of the '376 application, several
amendments added Claims 40-46 to the application. Thus, the
'376 application contained Claims 1-46.

The present amendment cancels Claims 1-46. Claims
47-57 have been added to claim the subject matter that was
canceled without prejudice in the '376 application in order
for the remaining method claims to be allowed. As noted,
the allowed method claims are now subject to an interference
proceeding with two other parties.
